## Coretech DVT Pump

RHB2047

The Coretech DVT Pump helps optimize blood flow to the leg. This two-piece set includes a lightweight pump and a breathable calf sleeve for easy portability. Simply connect the pump to the sleeve and comfortably adjust it around the calf with the hook and loop straps. When the low battery indicator is on, charge by plugging the USB cord into the pump and connecting with a power adapter.

## Portable Design

Assists with DVT prevention while at home or on the go. The fabric sleeves and compact size make folding effortless for both storage and travel.

## Quality Material

The rechargeable pump and calf sleeves are breathable and lightweight for your comfort during extended use.

## Easy Application

The size suits up to 23" around the calves and the three hook and loop tabs ensure it stays secure all day.

## Led Display

Automatically turns on with a single button and conveniently displays time in use and battery life.
