

Coretech™ 180 Cervical Collar

SUP2049

HCPCS: L0180

Reducing tension in the shoulders and neck, the Coretech 180 Cervical Brace supports the head in a neutral position to effectively relieve pain and pressure. The adjustable brace features a unique push-button angle adjustment for therapeutic traction while immobilizing the head to promote proper posture and natural healing.

Allowing the head and neck to rest in a safe, neutral position, the rigid brace relieves pain due to muscle fatigue, strains, whiplash, forward head carriage and headaches. Encouraging higher patient compliance rates, the brace is easy to adjust and is lined with a soft breathable fabric for greater comfort.

Specifications

- What's Included
 - 1x 180 Cervical Collar
- Colors: Gray & blue
- Size: One size (13" - 19" neck circumference)
- 0.5 lbs
- Latex Free

Adjustable Fit

Easily adjust the cervical brace to fit neck circumference between 13" to 19".

Push Button Angle Adjustments

Adjust the cervical brace to one of five angles of support with a unique, push-button system.

Soft Breathable Lining

Lightly padding the brace, the interior lining is made with a comfortably soft terry cloth.

Rigid Exterior Frame

Rigid composite exterior provides added support to relieve pain associated with sprains, strains and whiplash.

Adjustable Back Panel

With locking tabs, the back panel length can be adjusted at both the top and bottom for customized support.
